# "Malo e lelei and welcome to Tonga!"

We are honoured to host the **4th Pacific Week of Agriculture and Forestry** here in Nuku'alofa. The theme for this week **Transforming Agriculture and Forestry: more regeneration, more productivity, more resilient** encapsulates key messages for our Pacific Islands and Territories whereby our land resources are threatened by unsustainable practices and we must continuously develop sustainable climate smart technologies to ensure that they remain healthy, productive, protected, and resilient.

We look forward to the new friendships and partnerships that will be forged in the coming days through information sharing sessions, side events and trade displays.

Tonga proudly invites you to witness our own growth in agriculture and forestry showcased by our local organisations, farmers and communities.

PACIFIC WEEKIOF AGRICULTURE AND FORESTRY AGRICULTURE AND FORESTRY NUKU'ALOFA, TONG

I wish you all the best and enjoy your time with us this week.

Malo 'aupito

**Dr. Siosiua Halavatau** Hon. Minister for Agriculture, Food and Forests Tonga

# FIELD TRIPS

#### DAY 2 - TUESDAY 27 MAY 2025

Organisers: Gov of French Polynesia, SPC-POETCom

#### Time: 10:00am

#### **Objectives: -**

- I. To demonstrate and raise awareness of how agroecology and organic agriculture inspired from nature-based solutions, drawing on both research-based evidence and traditional knowledge, can enhance the sustainability of our food systems. Beyond raising awareness, the aim is to foster regional cooperation dynamics to support the agroecological and food transition in the Pacific, addressing community needs and strengthening the resilience of the agricultural sector to the impacts of climate change.
- II. To highlight local products that are well-suited to our context but too often overlooked.
