

Building research and project management skills in fisheries staff in Papua New Guinea

Key details

Location

Papua New Guinea

Duration

Start Jan 2014

End Aug 2018

Budget

AUD 671,464

Commissioned organisation

University of Tasmania

Partners

National Fisheries Authority

Project Leader

Janelle Allison - University of Tasmania

Program

Fisheries

Project code

FIS/2010/055

This project investigated methods to build research and project management capacity in Papua New Guinea. In the short term, this work improved planning, delivery and extension of fisheries science. Longer-term outcomes were increased effectiveness of NFA and sustainability of Papua New Guinea fisheries resources.

ACIAR

Overview

This project aimed to train staff at the Papua New Guinean National Fisheries Authority (NFA) in scientific and technical skills needed to develop the organisation and to implement research projects.

The aquaculture and fisheries industries are central to coastal and inland communities' food supply and livelihoods.
