

Synthesis of learnings of sustainable intensification of agriculture in Cambodia

Key details

Location

Cambodia

Duration

Start Jun 2018

End Sep 2020

Budget

AUD 240,000

Commissioned organisation

Murdoch University

Partners

Murdoch University

Project Leader

Dr Davina Boyd

ACIAR Research Program Manager

Dr James Quilty

Program

Soil and Land Management

Project code

SLAM/2018/127

Overview

This project aimed to clarify the major insights from ACIAR investments at the program and cross program level, related to sustainable intensification of agriculture in Cambodia.

This activity aligns with the ACIAR strategy for growth – synthesising research, assessing impacts and learning lessons. It is an opportunity to consolidate findings from ACIAR investments in Cambodia and better understand their applicability for smallholder farmers through cross-project activities that have a multidisciplinary focus.

Project outcomes

- Consolidating, aggregating and synthesising insights about sustainable intensification from across projects.
- Facilitating multidisciplinary cross-project research on sustainable intensification.
